Exclusion Monitoring

Quickly and easily prevent fines and penalties from the OIG by monitoring your staff, contractors, and vendors for exclusions with Compliance Manager's exclusion monitoring.

Benefits

AUTOMATE FOR EFFICIENCY

Checking federal and state exclusion lists every month for flagged individual or vendors is a daunting task. Eliminate inefficiency from your team's workflow by automating your exclusion checks.

PROTECT YOUR BOTTOM LINE

It's costly to monitor Medicare and Medicaid exclusions of all employees, physicians, vendors and volunteers. Automation will save your organization money by taking the burden off of you and your staff.

MAINTAIN PEACE OF MIND

All federal and state healthcare programs are prohibited to pay for any item or service furnished, ordered, or prescribed by an OIG excluded individual or entity. Reduce your risk of doing business with excluded entities.

Quickly manage your exclusions from the Compliance Manager dashboard.
