

Audit Manager+ vs. Intelicode

Which Healthcare Auditing Platform Is Right for Your Organization?

At-a-Glance Difference

Audit Manager+

A comprehensive audit management platform for healthcare organizations that manages the full audit lifecycle, from planning and chart review to findings tracking, reporting, and corrective actions. It centralizes workflows, improves visibility, and supports consistent oversight.

Intelicode

Geared more toward coding analysis and benchmarking, particularly around evaluation and management services and provider coding patterns.

Key Distinction

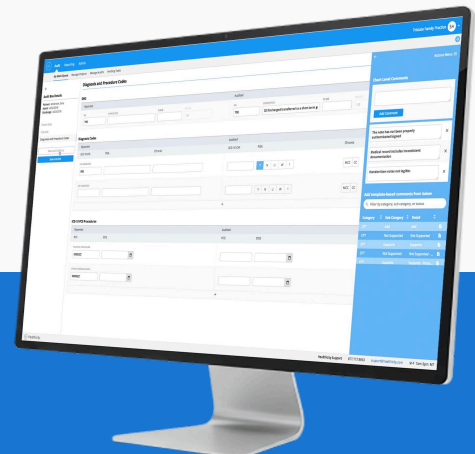

Audit Manager+ is built for organizations that need a connected platform to manage structured audit programs, support collaborative workflows, and track findings through resolution.

Intelicode focuses more on coding pattern analysis and benchmarking, while Audit Manager+ supports broader audit operations across coding, documentation, and compliance review.
