

Smart Design, Intelligent Auditing.

Audit Manager

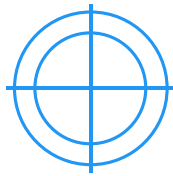

We streamlined the way you manage audits. By merging audit workflow, education and reporting into one intuitive, web-based solution, you can manage audits from anywhere, on your own terms.

Benefits

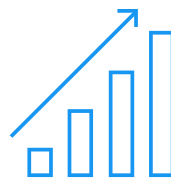

REDUCE EXPOSURE

Leverage extensive reporting and analytic tools. Evaluate financial impacts, minimize denials and identify missed revenue.

INCREASE EFFICIENCY

Limit the time you spend auditing. Our user-friendly interface gives you an intuitive audit workflow experience.

IMPROVE ACCURACY

Customize your audit templates. Include your own standards, MAC carrier guidelines and claim scrubber tech for optimum results.

BOOST EDUCATION

Get hyper-focused training modules. Our AAPC experts help you improve documentation and proficiency.

Features

CLOUD-BASED ACCESS

Never install software again. Access your reports, assignments and training from anywhere, any time.

REAL-TIME EDITING AND CLAIM ALERT

Improve your auditor's accuracy, instantly. Leverage real-time feedback for NCCI rule violation and other claim alerts.

CUSTOMIZABLE AUDIT GUIDELINES

Configure Audit Manager the right way: your way. Ensure total consistency across every audit and custom guideline.

ROBUST REPORTING AND ANALYSIS

Capture and report on all aspects of a completed audit. Group your results by provider, practice and organization.

ADVANCED WORKFLOW MANAGEMENT

Simplify your workflow management. Our features allow you oversight of your entire audit program.

CUSTOMIZED AUDIT FINDINGS

Add and customize findings by documenting audit results. Each report is unique to your organization and processes.

COMPETENCY-BASED EDUCATION

Track and report deficiencies on core competencies. Easily provide feedback to your entire team.

EVERY CODE SET

Audit every code type. The only audit manager that handles every code, including: CPT, HCPCS, ICD-9, and ICD-10CM.
