# Get a File. Any File.

Custom or standard, get any data file you need, at a great price.
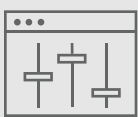

Data Files

Challenges were made for overcoming: from file type to formatting, we deliver the most accurate, easy-to-implement custom data available. And at the best prices. We'll assign you a dedicated data partner to assure you get the right file type and ensure your business runs smoothly.

Benefits

ACCURATE FILES

AAPC coders with a wealth of data knowledge are the key to getting the most accurate data. Put your faith and files in the hands of our experts.

QUICK & CUSTOMIZABLE

Custom-built files and formats to save your team time and energy. No matter your data needs, we'll have your solution in as few as five days.

UNBEATABLE PRICING

Accurate data or reasonable prices? This isn't a choice, but a requirement. We deliver the most accurate data and guarantee the best prices.

DEDICATED PARTNER

We'll assign you a dedicated data partner to find you the files you need. With over 30 years of coding experience, who better to partner with?

Features

RVU

PROCEDURAL DATA WITH RVUS

Easy-to-install, manipulate and incorporate dataset. Includes CPT® codes and descriptions along with sourced relative value data.

RVU CPT

PROCEDURAL DATA WITH RVUS - CPT® MODIFIER CROSSWALK ADD-ON

Proper crosswalking of modifiers to procedural codes. Assure accurate reporting, improve reimbursement and prevent payer review.

RVU CPT HCPCS

PROCEDURAL DATA WITH RVUS - CPT®-HCPCS - RVU RELATIONSHIP ADD-ON

Excellent add-on for the Procedural Data with RVUs data file. Data files will help add certainty to an uncertain activity.

RVU CPT USAGE

PROCEDURAL DATA WITH RVUS - CPT® USAGE INDICATOR EDITS ADD-ON

Helpful add-on file makes reporting Medicare claims more accurate, especially if you are using RBRVS data. Easy-to-add into any application.

NCCI

NCCI FOR PHYSICIANS

Applicable edits between various CPT®/HCPCS Level II codes, associated NCCI edit rules and modifier indicators. Available in custom formats.

HCPCS

HCPCS CODE INFORMATION

Current HCPCS Level II codes include a wealth of additional data. Ideal for reporting, tracking or paying claims for services and supplies.

ICD-10-CM

ICD-10-CM CODE SET

Ready-to-add code set that is developer-friendly. Make incorporating ICD-10 codes and descriptions easy and effective.

LCD

LCD BY LOCALITY

Correct Local Coverage Determinations (LCDs) for your state, as mandated by CMS. Featuring quarterly updates by our experts.

ICD-9 ICD-10

ICD-9 TO ICD-10

Crosswalked files help bridge the gap between ICD-9 and ICD-10 codes and descriptions. Ease your transition and implementation today.

OPPS NCCI

OPPS-NCCI QUARTERLY EDITS

Easy-to-add, simple-to-manipulate file, helps you report and get paid accurately. Updated quarterly, these files ensure continued accuracy.

ICD-10 PCS

ICD-10-PCS

Complex data files, made easy. Ensure your data is accurate, system-friendly, and provides crucial information for correct code assignment.

CPT ICD-10

CPT® TO ICD-10

Accurate CPT® to ICD-10-CM crosswalk developed by AAPC experts. Streamline billing, minimize denials and increase reimbursement.
