# Training Center

Healthicity has partnered with the best-in-class Learning Management System (LMS), Litmos, to provide the ultimate training experience for your employees. Training Center represents an evolution in the way you can create courses, organize your employees, and report on performance.

New Features

IMPROVED API CONNECTION
Litmos's API connection means that more of your work can be done inside of Compliance Manager, limiting the need to move between applications.

SIMPLIFIED COURSE BUILDING
Use embedded content creation tools that support multiple formats. Course content is added in the form of modules.

Quickly manage and report on every employee in the new Training Center dashboard.

UPDATED REPORTING
Review performance and gain insight into training impact with reports and dashboards, or create custom reports delivered via email.

Core Courses

Training Center comes with 20 courses covering the compliance spectrum. Additionally, there are hundreds of additional healthcare courses available for purchase. For a detailed list of the additional courses, ask your Account Executive.
