

Moving Audits to Another Project

Enterprise Version Instructions

To move an audit from one project to another > go to Audit > Audit Work Queue > View by Audits > Check box to left of the audit > Click Actions > Change Project > in the pop-up menu, Select the new project.

Consulting Version Instructions

Go to Audit > Audit Projects > Use the funnel to sort on the client > check box to left of the audit > Click Actions > Change Project > in the pop-up menu, Select the new project.
